

Component Sticker Sheet

- Added PX Blue components (Scorecard, Empty State, Channel Value, Heroes, List Item Tag, Info List Item, Nav Rail, Drawer, Dropdown Toolbar) to our [Sticker Sheet](#)
- Added several PX Blue design patterns (Progress Indicators, Pagers, Panels)
- Added more Material UI components (Bottom Sheets, Chips, Snackbars, Cards, Sliders, Tooltips, Switches, Avatars, FABs)

Design Patterns

- Re-organized and added new content to explain our [design patterns](#).
- Added more images and design specifications.
- Completed migration of [Angular](#), Ionic, and [React Native](#) design patterns into a single example repository.

Documentation Site

- Added documentation around [accessibility standards](#), how to design [websites](#), and [illustrations](#).

Component Libraries

- Added new components to our [Angular](#), [React](#), and [React Native](#) component libraries:
 - For Angular, we now have components for Dropdown Toolbar and added a [nav-rail variant](#) to our Drawer component.
 - For React, we now have components for Dropdown Toolbar.
 - For React Native, we now components for [Spacer](#) and [List Item Tag](#).
- Enhanced our component libraries to support right-to-left languages and developed / integrated a [RTL toggle](#) into our storybook demos.

Reusable Workflows

- Reusable [Authentication Workflow](#) for React.

Miscellaneous

- Added new [progress icons](#) and an optional percentage label.
