

# Designer Resources

---

We provide the following easy-to-use Figma community resources. They are also listed publicly under the Figma community profile name [@eaton\\_community](#).

## Community Files

---

The Brightlayer UI community files can be duplicated into your own draft space, and you can play around with our components and patterns however you like or use them to build up your own project designs.

## Other Design Systems

---

Listed below are some other design systems and resource groups offered by Eaton. Some may require you to log in with Eaton credentials.
